

A photograph of three King penguins standing on a sandy beach under a blue sky. The penguin on the left is facing the other two, with its beak open as if calling or communicating. The penguin in the middle is facing away from the camera, looking towards the other two. The penguin on the right is facing the middle penguin. The text "AIMING BIG" is overlaid in large orange letters, and "STARTING SMALL" is overlaid in smaller orange letters below it.

- First is the elephant
  - aiming big!
- Second is the cutting into small sizes
  - starting small!

This is God's blessed order.

- Human grow from baby to adulthood
- Trees don't grow from the top, the start from the bottom
- The longest journey ever begins with the first little steps

# The Elephant

- Aim Big!

“The universe is big enough, big enough to accommodate all the lofty thoughts of man.”

Have a big picture of your life

The Elephant = Vision

You need a vision. You need to dream and dream big.

A vision or dream is a purpose, a goal you need to achieve.

Have a clear picture of your dream, it must be bigger than your present position. Far bigger!

Your vision is your future and the sum total of your life. Take it as your life object and GO FOR IT!

Prov 29:18 “ . . . . Where there is no vision the people perish . . . ”

# Capacity

“ The man that made the Aeroplane never saw it anywhere before – but in the heart!!”

The first resource for your vision is not money but the heart – the unrelenting desire to do it.

NIKE slogan – just do it!

You've got a heart? You've got the capacity to  
actualize your dream.

It begins in the heart, grows in the heart and out  
it manifest.

# The Start

“The river may be wide, but it can always be crossed.”

An unknown source

No matter how big the vision is, even bigger visions have been accomplished.

You start small with eyes fully on the big picture.

Beginning with the little things.

“To learn english begins with the study of  
A,B,C,D,E, . . . W,X,Y,Z.”

- 
- Grow the little things CONSISTENTLY
  - PASSIONATELY
  - Aligning with the big picture

- Pushing again and again. The man that discovered electricity tried and failed, it is said, ninety-nine(99) times
- Keep trying – employing varied means

- Openness to new ideas.

“it is not the strongest that survives nor the most intelligent but the one who is willing to adapt to change.”

Charles Darwin

- A meek and humble heart.

“In pursuing a vision there are many frogs you may have to eat.”

Deflate your ego, enlarge your heart knowing  
*“humility is the ladder up a steep mountain.”*

# Growth

Grow the vision.

Grow it bigger than the original picture.

All things God made grows – no static position in life. Grow your vision!!
